

### Instructions

The instructions presented in this document shall be followed by all Third Party Contractors regarding the Transmittal Cover Sheet. The Transmittal is used to send items between companies. The Transmittal describes what items are being sent, to whom they are being sent, and who is sending them. The Transmittal should be used by all parties on the project.

The company that is transmitting something should have their logo displayed on the Transmittal Cover Sheet. If the Transmittal is being sent from the Third Party Contractor to Metra, then the Third Party Contractor's logo should be displayed in the upper left-hand corner of the page, and vice versa.

Check boxes can be selected, which describe the reasons for transmitting the attached items. More than one (1) check box may be selected.

Follow the directions on the subsequent pages for entering data into the Transmittal Cover Sheet. Once the Transmittal is filled out, it should be printed, signed, and dated prior to sending.

### Notes:

1. To insert the Third Party logo, go to Page Setup in MS-Excel, click on the Custom Header button under the Header/Footer Tab, use the Insert Picture button and Format Picture button to insert and size the new logo in the Left Section of the Header.
2. The Transmittal Cover Sheet is a one (1) page form. Additional sheets may be attached, as necessary, to describe the items being transmitted. Any additional pages attached to the Transmittal Cover Sheet shall clearly identify the Project name, Metra Project number, Contract number and Task number (if applicable).
4. The general layout of the form has been established by Metra and shall not be altered by the Third Party Contractor.
